

# Documentation

The left menu bar provides all relevant documentation for science users.

- The general section provides information about the **Science Plan**, the **User License Agreement**, the **proposal submission procedure** and the **price list for scientific users**.
- The product description section provides information about the different product types like **Basic Products**, **Level 1b Products**, **TerraSAR-X Like Products**, **Experimental Products** and the **ATI Products**.
- Data access is possible for investigators with an approved proposal via the DLR order tool **EOWEB**. The download of TerraSAR-X data requires special security regulations which are described in the **FAQ** document. There are also some remarks on ordering in EOWEB in it.
- The last three sections direct to the results of the TerraSAR-X Science Team Meetings held at DLR Oberpfaffenhofen:
  - ◆ **3. Science Team Meeting** 25-26 November 2008
  - ◆ **4. Science Team Meeting** 14-16 February 2011
  - ◆ **5. Science Team Meeting** 10-14 June 2013
